

**ALL TERRAIN CRANE
AC 350/6**

VERSATILITY AT ITS BEST

WORKS FOR YOU.™

EXPAND YOUR OFFERING WITH A TRUE ALL ROUNDER IN 350-TON CLASS

New Terex® AC 350/6

Our new AC 350/6 has been designed to make your life easier. Developed for simplicity of use, with standard features that make it the all-round champion in its class, you can count on this machine to carry out virtually any task, wherever the site, whatever the job and doing it safely. Its extreme mobility and low fuel consumption also mean that it is surprisingly economical to operate.

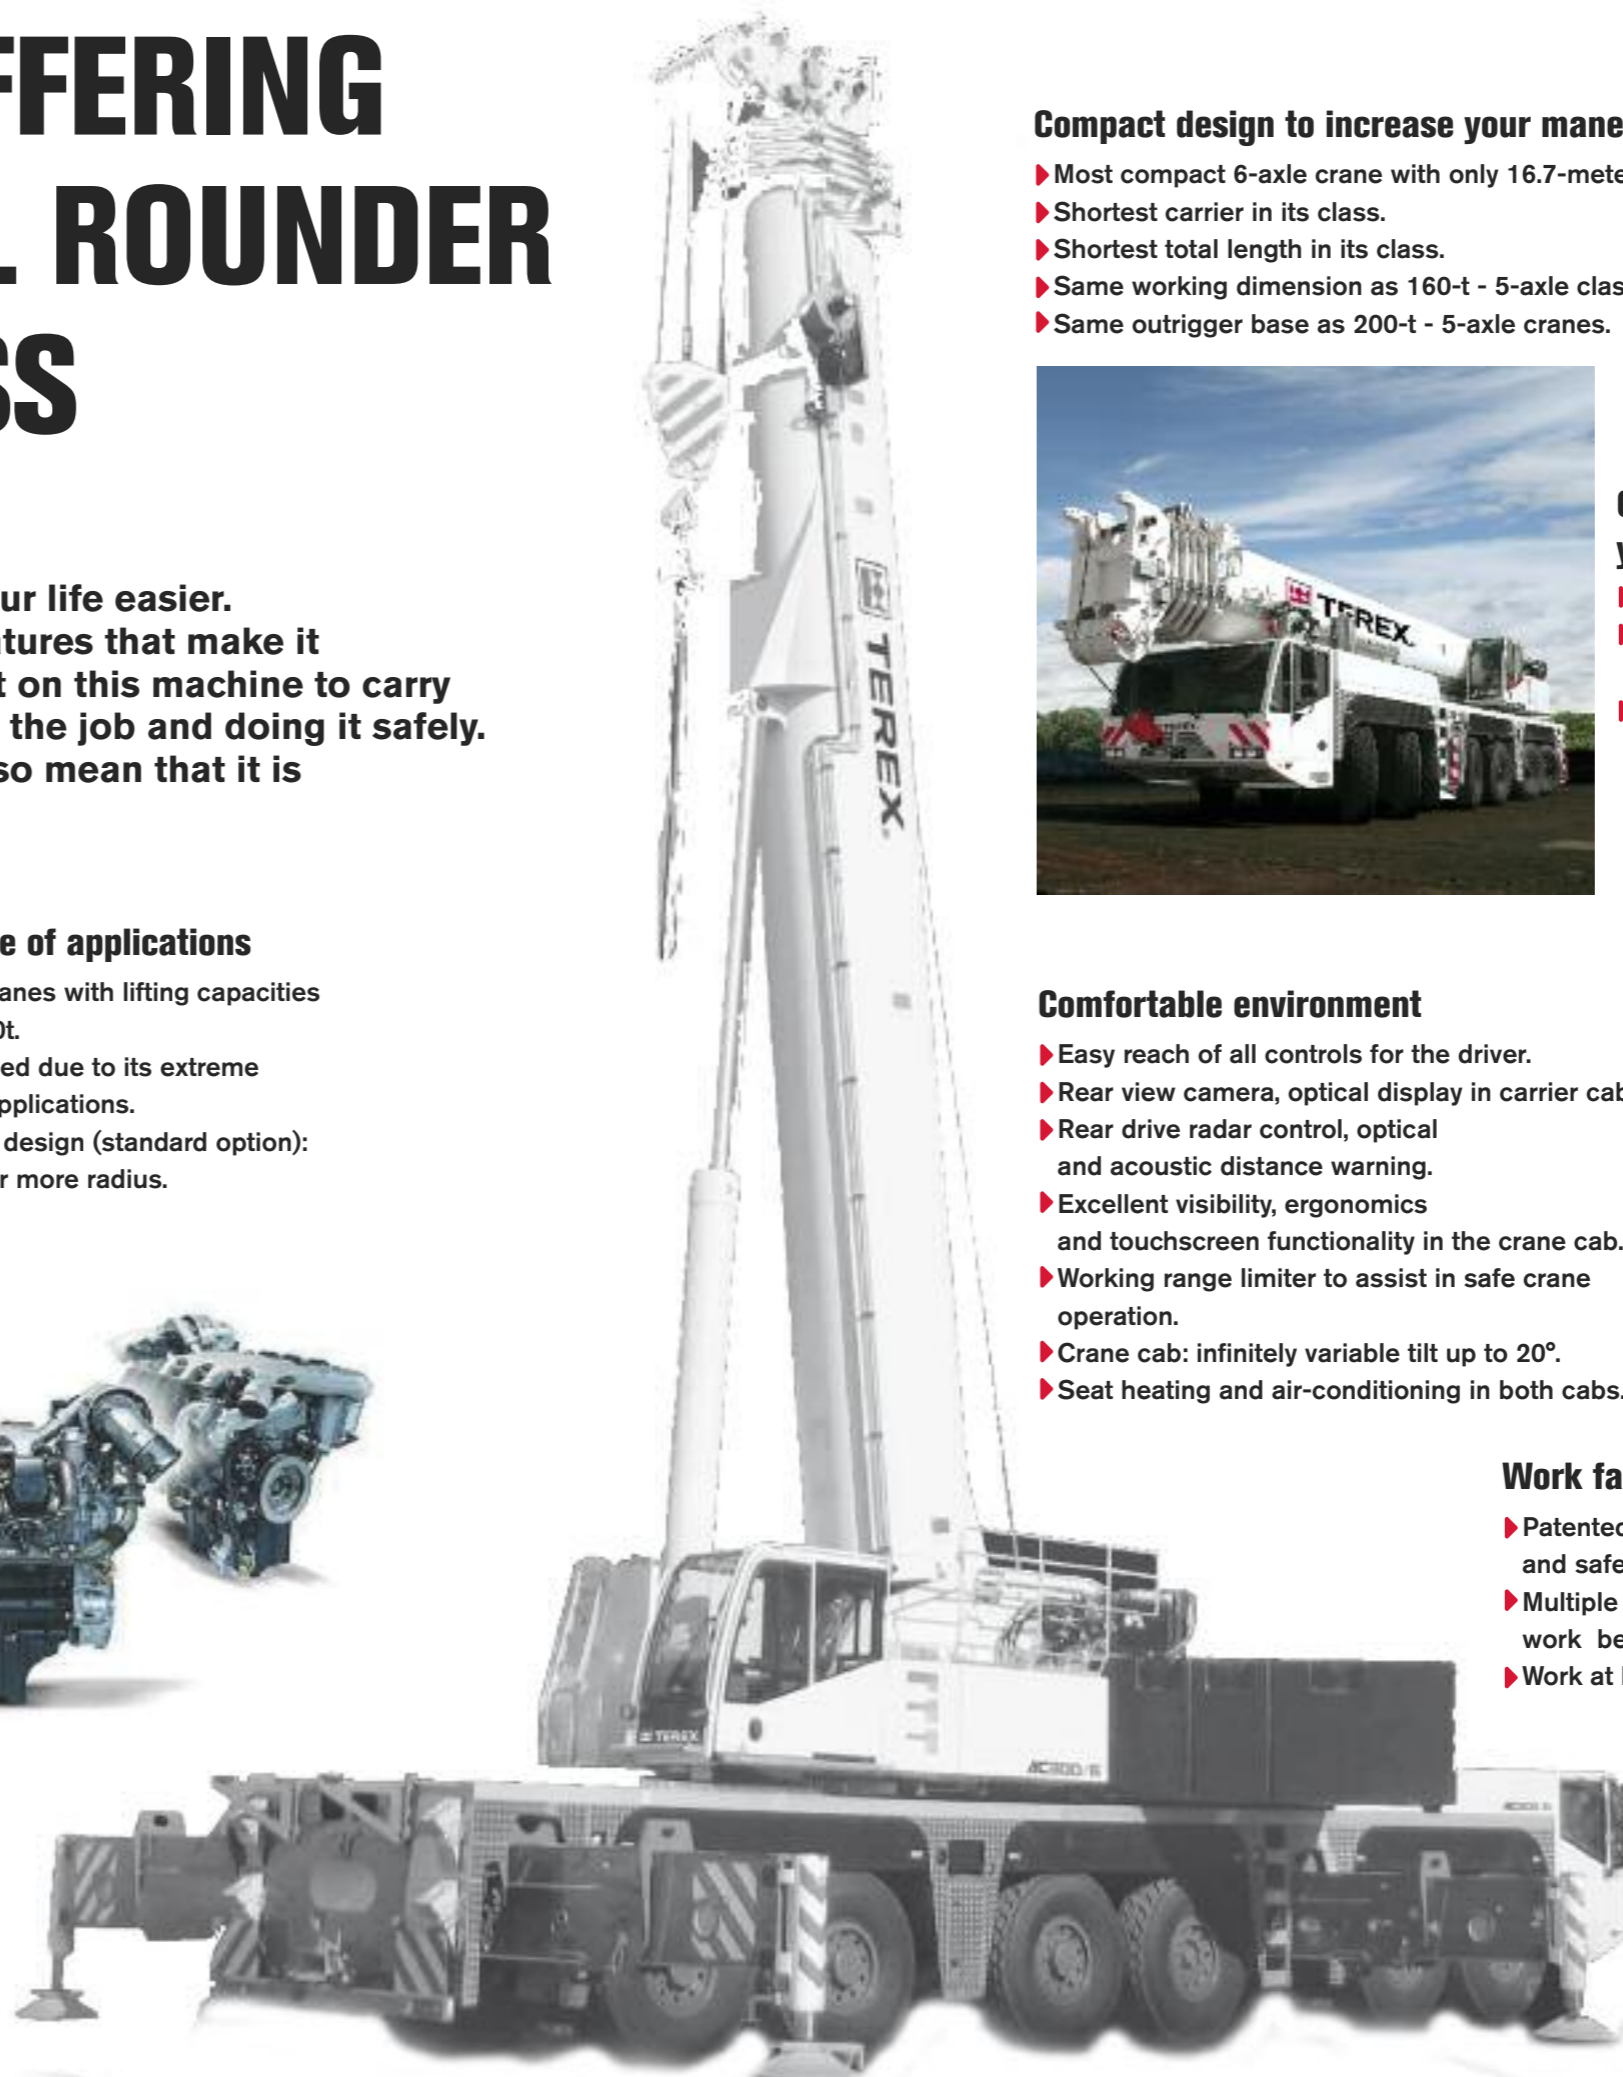

Versatility for a huge range of applications

- ▶ You can cover work done by cranes with lifting capacities from 160-t up to more than 350t.
- ▶ Full basic capacity easily reached due to its extreme versatility in a wide variety of applications.
- ▶ Unique “Swan Neck” luffing jib design (standard option): a double folding opportunity for more radius.

Power for you to outperform your expectations

- ▶ Strongest capacities in 350-t class in most working configurations.
- ▶ Superlift for additional capacity increase.
- ▶ Class-leading 64-meter main boom.
- ▶ Up to 125.7-meter class-leading total system length.
- ▶ Carrier and crane are equipped with powerful, economic engines.
- ▶ A modern control system offers reduced fuel consumption to create the most economic crane in its class.

Compact design to increase your maneuverability

- ▶ Most compact 6-axle crane with only 16.7-meter total length.
- ▶ Shortest carrier in its class.
- ▶ Shortest total length in its class.
- ▶ Same working dimension as 160-t - 5-axle class.
- ▶ Same outrigger base as 200-t - 5-axle cranes.

Optimized logistics to reduce your operating costs

- ▶ Easy transport and rigging.
- ▶ Up to 84-meter class-leading roadable system length.
- ▶ Automated counterweight rigging system.

Comfortable environment

- ▶ Easy reach of all controls for the driver.
- ▶ Rear view camera, optical display in carrier cab.
- ▶ Rear drive radar control, optical and acoustic distance warning.
- ▶ Excellent visibility, ergonomics and touchscreen functionality in the crane cab.
- ▶ Working range limiter to assist in safe crane operation.
- ▶ Crane cab: infinitely variable tilt up to 20°.
- ▶ Seat heating and air-conditioning in both cabs.

Work faster

- ▶ Patented luffing jib rigging system for easy and safe rigging.
- ▶ Multiple handrails help technicians work better and safely.
- ▶ Work at height fall arrest system for safe access.
