'Big Enough to Cope Small Enough to Care'

King Lifting Limited are an independent provider of training for safer lifting operations. We are a CPCS Technical Test Centre and we specialise in training for a number of categories including Appointed Persons, Crane Supervisor, and Slinger/Signaller. (See below for full list of courses)

Construction Plant Competence Scheme (CPCS)

The CPCS is a card scheme to prove the skills of plant operators. CPCS is the largest and most highly recognised card scheme for the plant industry. It helps to prove workers' operating skills and health and safety awareness. The Construction Plant Competence Scheme (CPCS) provides a single skills card for the plant sector of the construction industry.

In order to satisfy the rules of the new scheme our fees are broken down into two areas - training fees and technical test fees. We recommend that candidates for the technical test undertake training with us prior to the test, however, the test can be taken independently if requested.

What's New?

- A new core element which applies across all categories and routes of entry and will replace the intermediate Certificate, (the current training and testing element for the red Trained Operator card route of entry into the scheme)
- Will be in two parts, a practical test of ability and a theory test (which incorporates questions relating to underpinning knowledge, specific category and environment related H&S, and Operators rights and responsibilities)
- Supported by a training syllabus, against which training can be tailored to meet individual requirements through a variety of channels including accredited CPCS Trainers, training providers, in house trainers and colleagues.
- The S/NVQ will only need to be passed once for a family of categories (grouped in a unit), so if an individual has an NVQ in a 360 excavator below 10 tonnes, if they pass a further CPCS Technical test on a 180 excavator below 5 tonnes they will automatically be awarded the blue Competent Operator Card.

Training and Testing Fees

Technical Test Only

If you want King Lifting to carry out the Technical Test only i.e. the candidate has had sufficient prior training and experience please refer to the table on page 3 & 4.

Training Only

If you want King Lifting to carry out the training only i.e. the candidate undertake the Technical Test at a later date or at another centre and no qualification will be issued, please refer to the table on page 5.

Training and Testing

If you want King Lifting to carry out both the Training and Technical Test (recommended) please refer to the table on page 6.

All Training & Testing is subject to availability

Grants are available from CSkills for companies which are in-scope and registered. We have included a guide to available grants at the back of this brochure. For further information and advice please contact your local CSkills adviser.

Industrial Forklift - A16	£76.00	£325.00
Lorry Loader(Hook) – A36a	£76.00	£325.00

Eligibility and Conditions CITB-ConstructionSkills Grants Scheme 2009/2010 Status of employer

For a grant to be paid to an employer under the 2009/2010 Grants Scheme, the employer must be in-scope to, and be registered with, CITB-ConstructionSkills when the appropriate Grants Scheme conditions are met.

Firms which are 'in-scope excluded' are not eligible for grant. Firms are in-scope excluded when they do not have any direct employees, labour-only sub-contractors or agency staff, and may therefore include some sole traders and partnerships. Limited companies are employers due to the fact they employ at least one director and company secretary.

You can claim for up to two standard or advanced Practical Tests per individual in each CITB-ConstructionSkills Grants Scheme year.

A pre-populated GC1/1 claim form will be sent to you automatically. If you do not receive a GC1/1 you can download one at http://www.cskills.org/uploads/Grant-Claim-GC1_tcm17-10036.pdf

To ensure that you receive payment you must inform the CPCS Test Centre of your seven-digit CITB-ConstructionSkills Levy & Grant registration number at the time of booking the test. The CPCS Test Centre will then complete the appropriate documentation on your behalf to ensure that a claim form is issued.
